

Combination Therapy: Your Pathway to Clear Nails

Fungal laser treatment isn't just about improving how your nails look. It's about restoring confidence, comfort, and control—so you can step forward feeling your best, every day

IDENTIFY

A nail biopsy confirms the diagnosis
Appearance alone cannot confirm nail fungus.

ORAL THERAPY

Working from the inside; Lamisil or medical food vitamin supplements.
90 days, once a day

TOPICAL THERAPY

CN-U is a topical nail renewal gel designed to treat fungus, bacteria and yeast

LASER THERAPY

Aerolase laser passes through the nail safely and reach the fungus living underneath. 4 Sessions over 90 days

CLEAR NAIL FOLLOW UP

Re-evaluation with Dr. Graham at 4 months to confirm clear nails
